Summary

Full Stack Software Developer with 10+ years of experience delivering scalable web and mobile applications. Strong expertise in React, Node.js, TypeScript, PostgreSQL, and AWS, with a focus on backend architecture, APIs, and performance. Proven track record of leading teams and shipping production systems in high-pressure, agile environments.

Experience

Spring Valley Tech Corp.
Full Stack Software Developer
Negros Occ, PH
July 2020 to Present

- **Led cross-functional teams (5–10 developers)** delivering end-to-end web and mobile systems, driving scalability, code quality, and on-time releases across multiple client projects.
- **Designed and delivered high-scale production systems** using Node.js, TypeScript, React/Vue, PostgreSQL, and AWS, including platforms supporting **5TB+ file uploads** and mission-critical workflows.
- **Modernized and rescued high-risk projects**, including healthcare, fintech, and enterprise platforms, consistently brought in to stabilize delivery and complete stalled or failing initiatives.
- **Spearheaded major migrations and rebuilds**, including legacy → modern stacks (Next.js, Serverless, Manifest V3), improving performance, security, and long-term maintainability.
- **Delivered successful products across industries** (fintech, healthcare, telecom, SaaS, fitness), ranging from solo builds to team-led efforts, some growing to **1,000+ users post-launch**.

E2E Consultancy Inc.
Software Developer
Iloilo City, PH
February 2020 – June 2020

- **Designed and launched a cross-platform food delivery app** using Flutter and AWS, handling the full mobile lifecycle solo and releasing to both **Google Play and App Store** within 4 months.
- **Built and integrated a Point-of-Sale module** for an existing ERP system using PHP and JavaScript, expanding platform functionality and delivering fast, production-ready features recognized by management.

Spring Valley Tech Corp.
Mobile Application Developer
Roxas City, PH
June 2019 – February 2020

- **Co-developed multiple on-demand and eCommerce mobile apps** using Flutter and Firebase, delivering production features in fast-paced, small-team environments.
- **Shipped a hailing app, and SME eCommerce platforms** adopted by local governments and commercial clients, contributing to company portfolio growth, revenue, and investor interest.
- **Contributed to UI/UX and feature delivery** across municipal and consumer-facing apps, improving adoption and operational efficiency.

https://www.springvalley.tech

Poweree Commercial Corp
Software Developer
Pasay City, PH
August 2016 – April 2019

- **Sole developer and IT support** for a custom VB.NET sales, inventory, and accounting system, replacing legacy software and supporting day-to-day operations for 3 years.
- **Designed, built, and maintained the full system**, improving performance, stability, and business workflows while increasing employee productivity and service reliability.

Absolute Software Solutions
Software Developer
Makati City, PH
August 2015 – July 2016

Co-developed a production Point-of-Sale system using Visual Basic 6 and Visual FoxPro in a small team, delivering market-ready features adopted by multiple clients.

Education

STI College - Makati
Makati City, PH
Bachelor of Science in Information Technology
2011 – 2015

https://www.sti.edu/

Projects

Fintech Preference Algorithm
Lead Developer
September 2025 – Present

Spearheaded backend development of a preference and decisioning algorithm for a large-scale fintech platform using TypeScript and the Serverless Framework on AWS.

TypeScript, Serverless, AWS

Farm Management System
Lead Full Stack Developer
July 2025 – Present

Led development for an early-stage startup, delivering a production-ready SaaS platform using NextJS.

NextJS, TypeScript, Tailwind, Shadcn UI, Prisma, AWS, Vercel

https://famas-dev.springvalley.tech/

Insurance Platform Rebuild
Lead Frontend
May 2025 – August 2025

Spearheaded migration of a legacy system to Next.js + TypeScript, with Cypress testing, delivering a scalable, testable, and more maintainable platform for one of the largest PH insurance firms.

NextJS, TypeScript, Cypress

Telecom Sales App
Lead Mobile Developer
April 2024 – October 2024

Led mobile dev for a top PH telecom using React Native + TypeScript, with a MongoDB backend, streamlining workflows and improving sales agent productivity.

React Native, TypeScript, MongoDB

Urine Analyzer Mobile App
Mobile Application Developer
January 2023 – July 2023

Rescued a stalled Flutter + Firebase project, leading a 2-person team to deliver production in 5 months after 2 years of delays, avoiding additional client cost.

Flutter, Firebase

Crypto Wallet Migration
Full Stack Software Developer
June 2022 – December 2022

Migrated a Chrome Extension Wallet from Manifest V2 → V3 using ReactJS, TypeScript, Redux, Jest, enhancing performance, security, and privacy. Completed solo in 6 months with strong client feedback.

ReactJS, TypeScript, Redux, JS, Blockchain

Telehealth & EMR Platform (US/PH)
Full Stack Software Developer
July 2021 - June 2022

Directed a 5-person team to modernize UI/UX of a CodeIgniter + Bootstrap system adopted by hospitals and local governments. Brought back mid-transition due to high efficiency and delivery reliability.

CodeIgniter, PHP, Bootstrap

Project Management System (UK Client)
Full Stack Developer
January 2021 - July 2021

Designed and deployed a system using Node.js + Vue.js, supporting 5TB+ file uploads on AWS. Personally overhauled UI/UX and backend in 3 months, boosting client engagement and securing follow-up development work.

NodeJS, VueJS, AWS

Fitness Platform
Full Stack Software Developer
July 2020 - December 2020

Built a full-stack fitness platform (Flutter + Laravel) solo, growing to 1,000+ users post-launch, supporting business expansion into digital fitness.

Flutter, Laravel, Dart, PHP, PostgreSQL

Cross-Platform eCommerce App
Mobile Application Developer
February 2020 – June 2020

Designed, developed, and launched a Flutter + AWS food delivery app in 4 months, handling the full mobile lifecycle solo. Successfully released on Google Play and App Store, earning strong client satisfaction for quality and functionality.

Flutter, AWS

ERP SaaS – PoS Module
Full Stack Software Developer
February 2020 - June 2020

Independently built a Point-of-Sale module with PHP + JavaScript, integrating it into an existing ERP system. Expanded the platform's commercial value and received employer recognition for fast, reliable delivery.

PHP, JavaScript, Bootstrap

Taxi-Hailing App
Mobile Application Developer
June 2019 - August 2019

Co-developed a Flutter + Firebase taxi-hailing app in a 2-person team, delivering core features in 2 months. The app was added to the company's portfolio and attracted investor and franchisee interest.

Flutter, Firebase

SME eCommerce App
Full Stack Software Developer
August 2019 - October 2019

Built an eCommerce mobile app with Flutter + Firebase in a 3-month sprint, contributing to frontend functionality and UI/UX. The app was sold to local governments, integrated into company offerings, and generated new revenue and funding.

Flutter, Firebase, PHP, AngularJS

Bus-Hailing App
Mobile Application Developer
October 2019 - January 2020

Developed a Flutter + Firebase bus-hailing app for a local municipality, supporting feature implementation and deployment. The system improved shuttle efficiency and passenger adoption, receiving positive feedback from both client and end users.

Flutter, Firebase

Sales, Inventory & Accounting System
Full Stack Software Developer and IT Support
August 2016 - April 2019

Sole developer and IT support for a custom VB.NET system, replacing legacy software and maintaining it for 3 years.

VB.NET, SQL Server 2019

Point-of-Sale System
Full Stack Software Developer
August 2015 - July 2016

- Co-developed a Visual Basic 6 + Visual FoxPro PoS system in a 2-person team over 9 months.
- Delivered key features that drove market success, attracting multiple clients and meeting growing demand.

VB6, Visual FoxPro
